Action

Dear Mr. Bush:

As you know, the President has called for a nationwide program to immunize the American people against influenza this year, and the Congress has appropriated \$135 million to carry out the program.

This public health effort is unprecedented in scope and complexity. It will be possible to immunize some 200 million Americans within a very short time only if the program receives the full and vigorous cooperation of both the public and private sectors of our society.

Therefore the Department of Health, Education, and Welfare, which has primary responsibility for the program, will be calling upon you to help assure its success. To this end, you or your appropriate representatives are invited to attend a meeting on Friday, June 4, 9:30-11:30 A.M., HEW Auditorium, 1st floor, HEW North Building, for the purpose of sharing with the Federal Departments and Agencies the present and future plans of the immunization campaign and to talk about ways in which your agency might become involved.

Action

We need to develop plans for using all available governmental communication channels to encourage participation in the immunization campaign by employees and the various constituencies you serve.

I know we can count on your active support, and I thank you in advance for your cooperation in this vitally important public health program.

Cordially,

David H. Rosten

Secretary

Due to the short time frame, I should think an oral response to HEW would be sufficient.
